

# UNDIAGNOSED CHILDREN'S DAY 2024

## #MySWAN craft activity

Join in with our fun, fabulous craft activity this Undiagnosed Children's Day - make at home or at school, nursery or playgroup. Follow these instructions to make your swan, and don't forget to share a photo on your social media with a donate button!

### You will need:

- paper or card
- pens, pencils or crayons
- paint (optional)
- scissors
- glue
- fun things to decorate your swan

### STEP 1:

Using the template, draw the swan's body onto a piece of card and paper. If this is a bit tricky, a grown up or brother or sister may be able to help.

### STEP 2:

Use scissors to cut around the swan - you might like to ask a grown up to do this for you.

### STEP 3:

Colour in the eyes and beak on the swan, or draw a big smiley face!

## STEP 4:

On a new piece of paper, draw around your hand or use paint to make a hand print. These are going to be your swan's wings! Repeat this until you have as many wings as you like.

## STEP 5:

Cut around your handprints, or ask a grown up to do this for you.

## STEP 6:

Glue your handprint wings onto your swan's body, like the picture on the right.

## STEP 7:

Use whatever decorations you'd like to jazz up your unique Undiagnosed Children's Day swan!

**Once you've created your masterpiece, don't forget to take a photo and share on social media using the hashtag #MySWAN.**

**Make sure you tag SWAN UK and please add a donate button! If you aren't sure how to do this, let us know and we can help you out.**
